

# St. Mary's

Catholic Primary School

## Vision Statement

St Mary's is a community where we grow in love, Christian faith and knowledge of self, others and the world, and where learning occurs in a positive and nurturing environment.

## Mission Statement

At St Mary's:

We strive to touch the hearts and minds of all in our learning community.

We reach out to challenge and transform the life of every child in our care through what we teach, learn and contribute each day and by living out Gospel values.

We acknowledge the importance of the environment in which our students live and their uniqueness as country kids.
